Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #36151

India Human Development Survey-II (IHDS-II), 2011-12

Village

1. **Undocumented Codes:** The variables **VE10C2**, **VG10**, **VG10A**, **VG21D**, and **VN12A** contain undocumented values which ICPSR has labeled “UNDOCUMENTED CODE”. No information was provided.

2. **Documentation Discrepancies:** The variables **VI1BB, VI2BB,** and **CURRENTRURAL** are present in the data but do not appear in the Data Collection Instrument. No additional information was provided.

3. **Value Discrepancies:** Several variables in the data, such as **VG1G** and **VN1**, have discrepancies between the values labeled in the questionnaire and in the data. In the questionnaire, these values are labeled “Yes” for 1 and “No” for 2, and in the data the values are labeled “Yes” for 1 and “No” for 0. The P.I. has confirmed that the data contain the correct labels.

4. **Additional Information:** For additional information on the India Human Development Survey, please visit the India Human Development Survey Web site.

ICPSR 36151

India Human Development Survey-II (IHDS-II), 2011-12

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
